

CONTROL Z GROUP

Information Technology & Web Development Consultation

Business Model:

Control Z has a simple business model. We want to be the "one-stop-shop" for all your technology needs. We specialize in helping small businesses take full advantage of today's technologies.

Maximize Business Potential:

Our business breaks down into 3 components.

- Support: Keeping your technology operational and maintained.
 - Technology Integration: Streamlining the way you use technology.
 - Web Development: Creating websites and cloud based technology.
- These 3 components support you together with 1 goal in mind, to maximize your business potential.

Why Control Z:

We are a group of technology enthusiasts and experts. When you hire an IT consultant do you want someone who just views technology as a job or someone who loves what they do?

Experience:

Our experience not only comes from the professional world but from a passionate drive to discover and share new technologies.

Our team has spent over a decade learning and working with advanced technology and complex IT systems both personally and professionally.

Cost Effectiveness:

We will not try to sell you costly technology that would not really benefit your business just to meet a sale's quota. When we work with you we see independent hard working people who drive our local economies and part of our job is to help you make cost effective decisions that will truly improve your productivity.

Contact us today at (267)603-2181

Set up your consultation today to see how we can improve the way you utilize technology. From computer repairs to introducing new technology to website development we can assist you in all your needs.
